

C&N Pool Leagues

September 13 at 10:44 AM · 🌐

Attention Mankato Area League Players.....you may have read that we will be using CSR instead of normal player rank for our pool tournaments this year, this will be a very positive change. Also note that we will be using CSR to bracket teams for nights (Tues/Wed) that have multiple leagues with different skill levels. The top 5 players on your rosters will be used to calculate the skill level of your team, then your team will be placed in the appropriate league based on that skill level. We will also have "substitute CSR limits" for each league in Mankato.....meaning that only subs with a CSR that is at or below the league average will be allowed to sub in that league. If your favorite sub has a high CSR, just list him on your roster, or call us with his name and we can add him early next week.....if you don't, he/she won't be able to sub for your team. This method will stop any team bringing in a "ringer" as a substitute. This method only applies currently to Mankato area pool on Tuesday and Wednesday nights. It will not apply to Classic and Showcase as they are the top leagues on those two nights.
