

C&N Pool Player Rankings - Women

11/28/2023

Below is the C&N Pool player rank list. This list does not include all of our players, but does include players that have played a tournament or have excelled above the C or B level. We rank our players based on known ability, Fargo Rate, CSR, and success at our tournaments. We welcome input from our player base if we have misranked any players. Players that do well in a tournament often get elevated in their player rank. We do not elevate more than the top 10% of the field in any tournament. Most rank changes occur after the season is over, but we do reserve the right to make changes during the season if a gross error has occurred. Please call anytime to discuss player ranking if you feel it needs our attention. Each player has three rankings shown below: C&N, 7 State, and Great Plains. Each different organization uses a different handicapping system at their tournament, so different rankings are necessary.

Details: C&N Master and AA

M0 - Elite Master

M1 - Master

AA0 -Elite AA

AA1 -AA
